MEDICAL DIAGNOSTICS

## Our product – innovative technology for inspection

We offer sensors for integration

- Non-destructive
- Non-invasive
- Reliable
- Accurate
  
- Many different applications

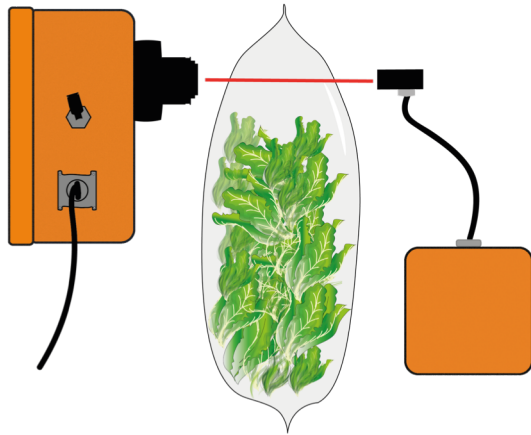

# Our market

- We target and deliver sensors to integrators within:
  - Pharmaceutical industry
  - Food industry
  - Beverage industry

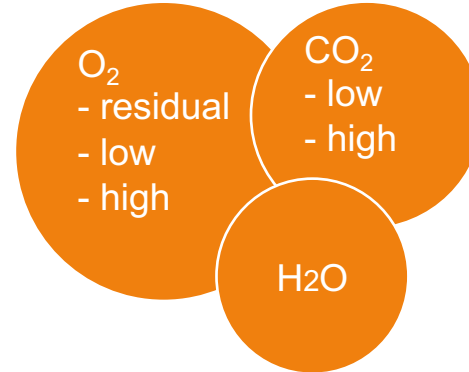

# Headspace analysis

## Gas analysis

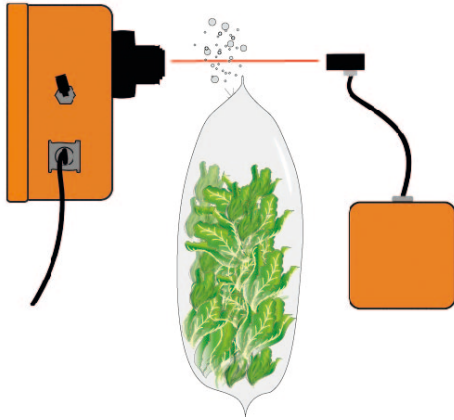

- Gasporox sensor for integration
- Gas concentration of:

# Leak detection

## Leak testing

- CO<sub>2</sub> detection from leaking packages.
- Some kind of force is applied to the package
- Very small amounts of leaking CO<sub>2</sub> can be detected due to high absorption of CO<sub>2</sub>

**GPX**  
medical

# Company

- Measurement technology for assessing gas concentrations in body cavities
- GPX Medical develops technology and systems for laser sensor based monitoring of

Lungs in premature babies

Sinuses

**Unique laser technology**
