

SPIE Photonics West
Biophotonics Hot Topics 2018

**Biophotonics Applications
of
Gas in Scattering Media
Absorption Spectroscopy (GASMAS)**

Katarina Svanberg and Sune Svanberg

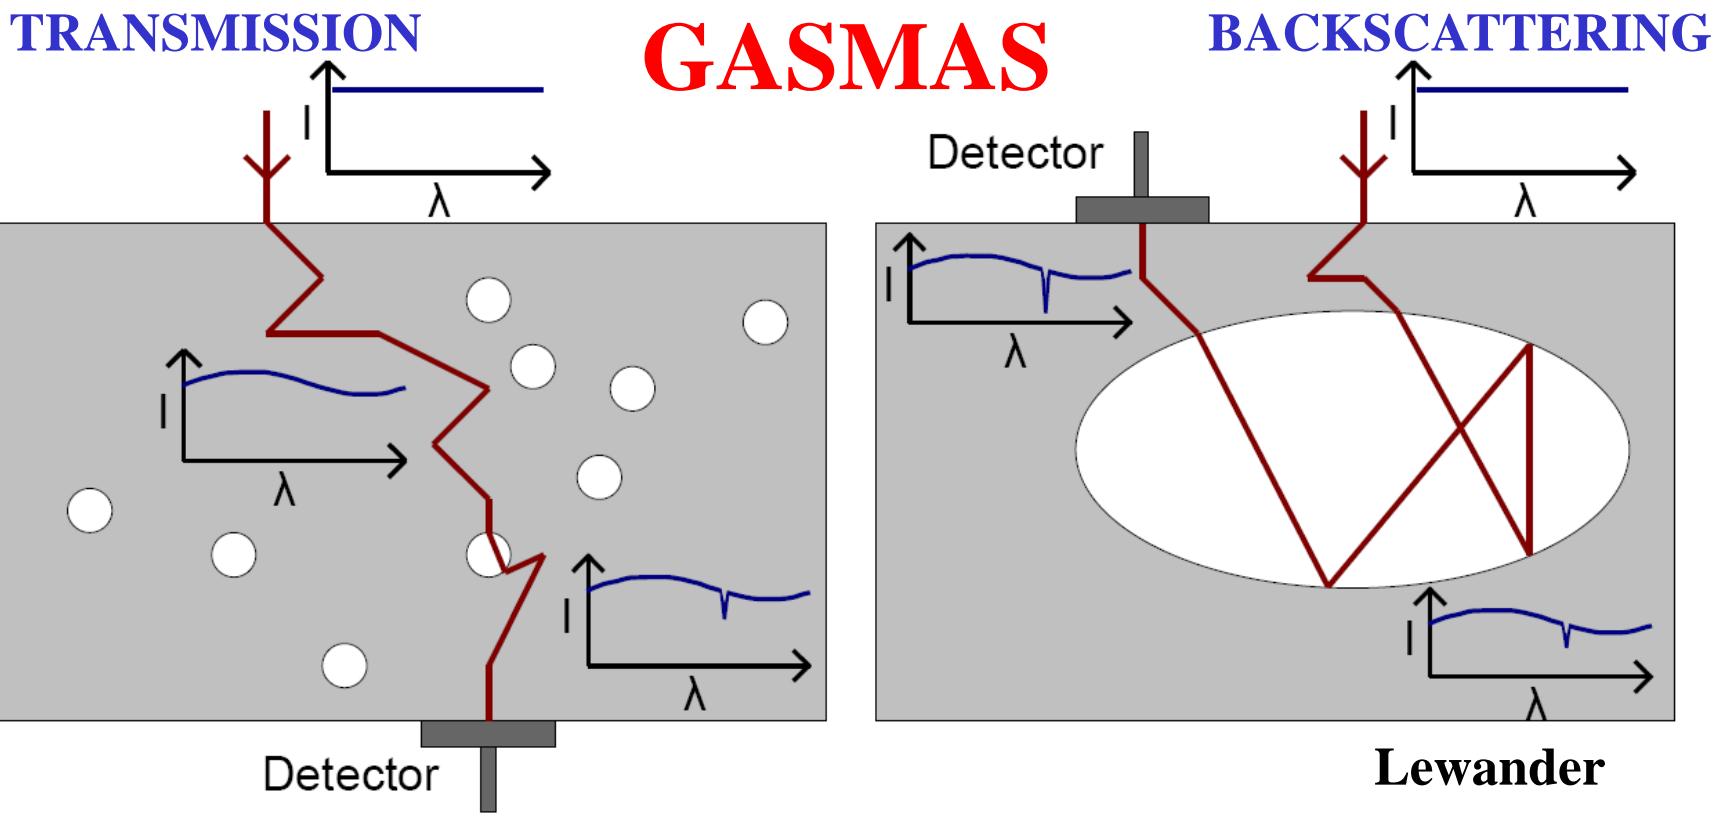

**LUNDS
UNIVERSITET**

*Lund Laser Centre
Sweden*

*South China Normal University
Guangzhou*

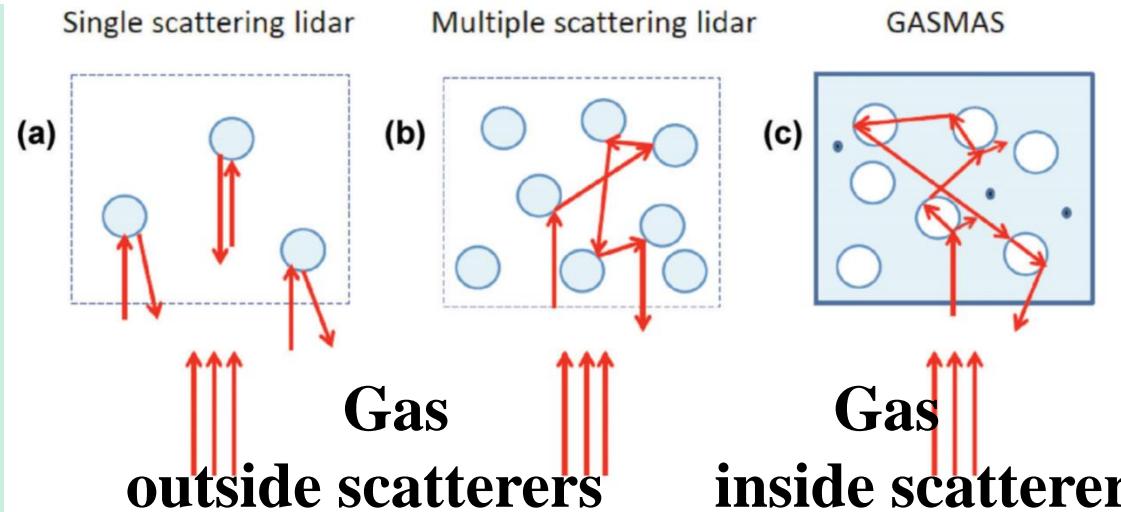

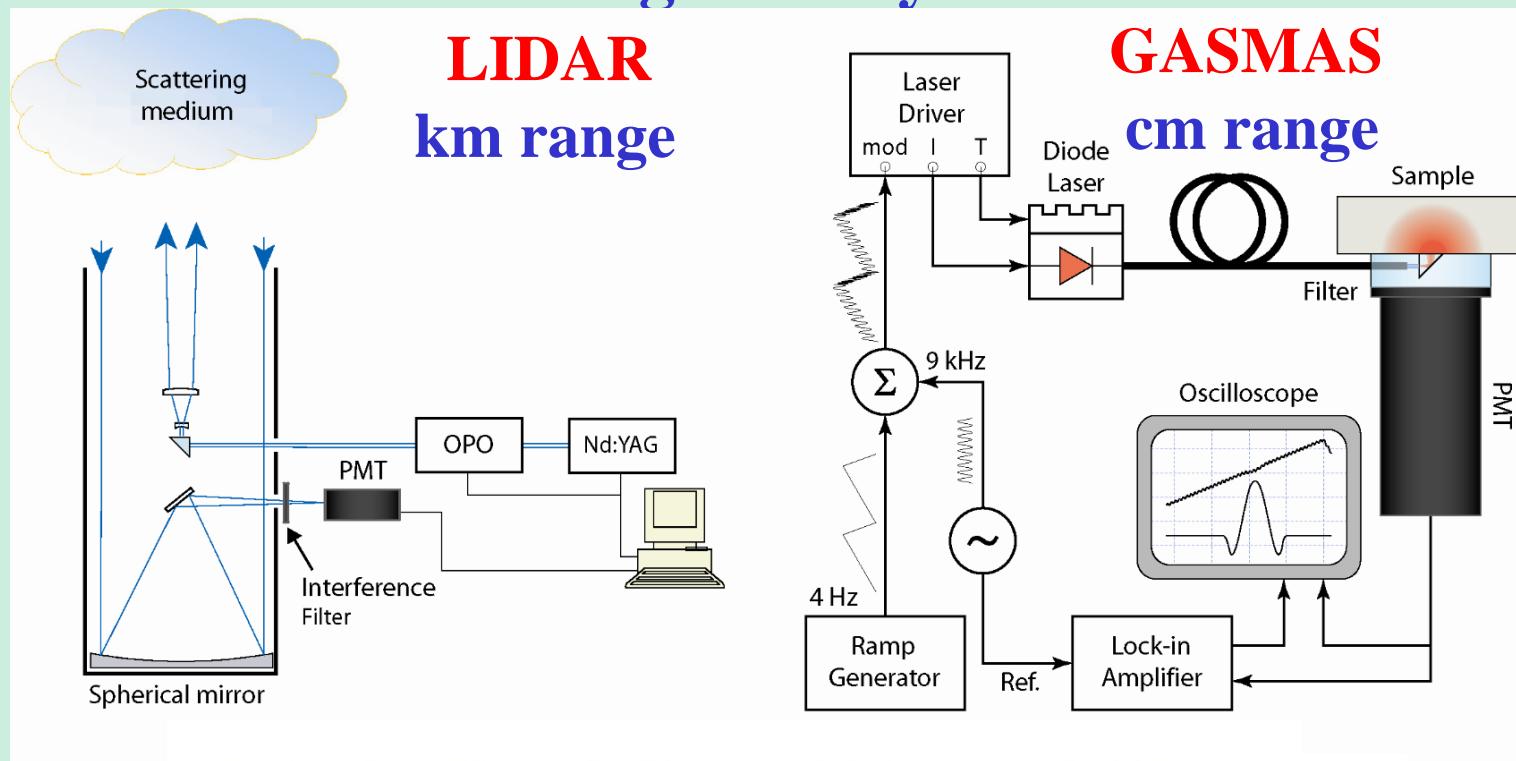

Materials, pharmaceuticals, food stuffs and packages, biomedicine ...
How to handle the path-length problem? Normalize on water vapor!

Collaborators in Sweden and China

M. Andersson, S. Andersson-Engels, P. Chen, D.L. Chen, V. Fellman, W. He,
 L.N. Hu, J. Huang, E. Krite Svanberg, J. Larsson, M. Larsson, T.Q. Li, W.S. Li,
 Y. Li, H.Y. Lin, M. Lewander, P. Lundin, S. Lindberg, L. Mei, L. Persson,
 R. Siemund, G. Somesfalean, T. Svensson, C. Xu, H. Zhang
 Spin-off: GASPOROX AB

Large- and small-scale sensing for gas analysis

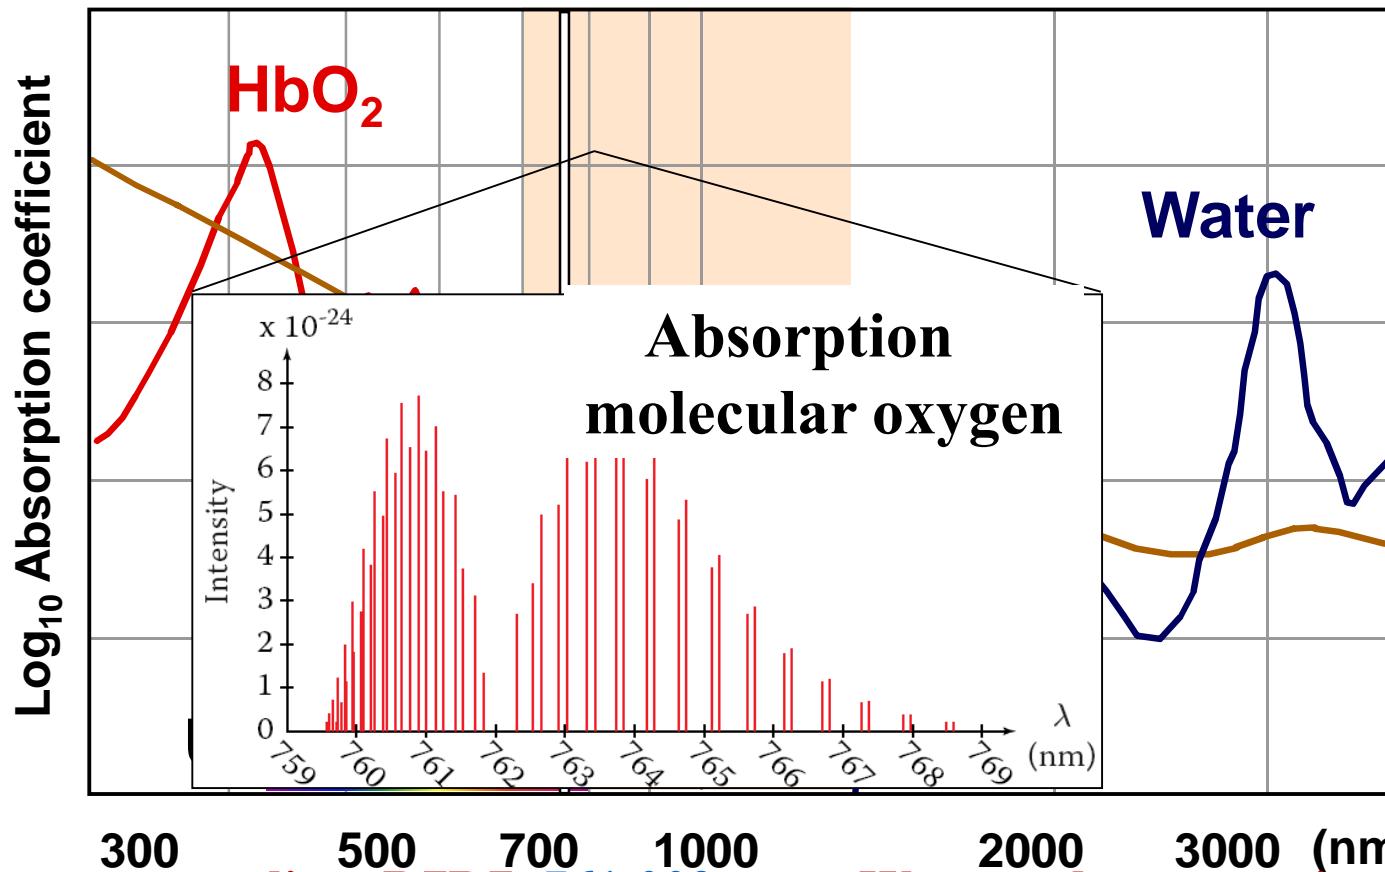

Tissue and Free Gas Absorption

Key to GASMAS:

10,000 times difference in linewidth!

Use lock-in wavelength modulation spectroscopy !
Absorption of light in tissue

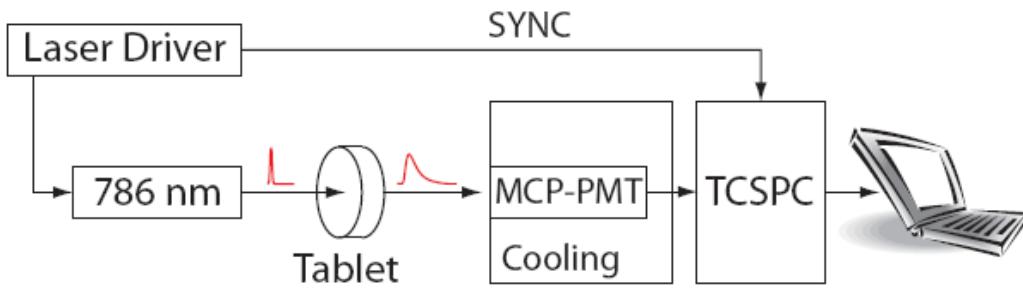

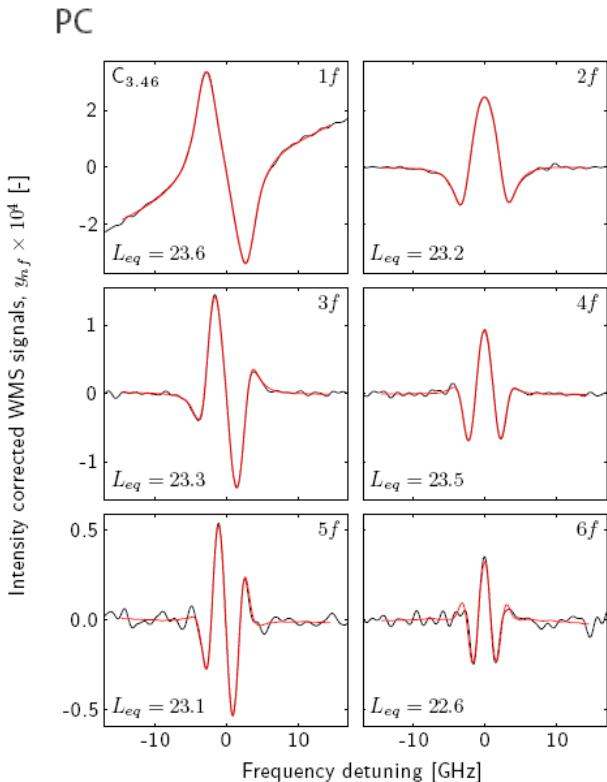

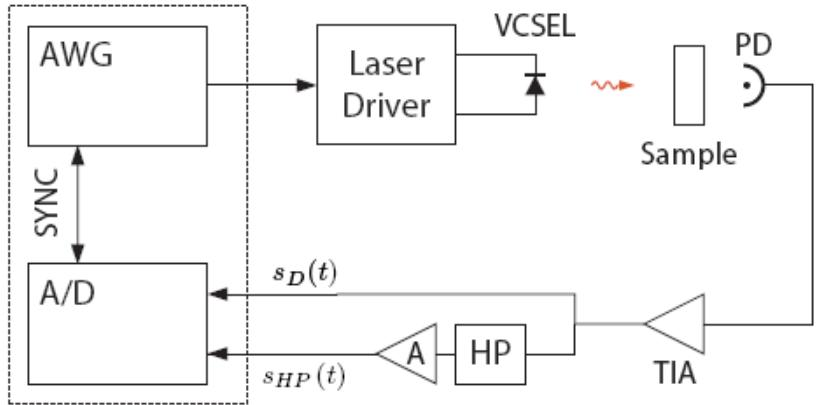

Strongest oxygen line: R7R7: 761.003 nm - We must be correct in the 6th digit!

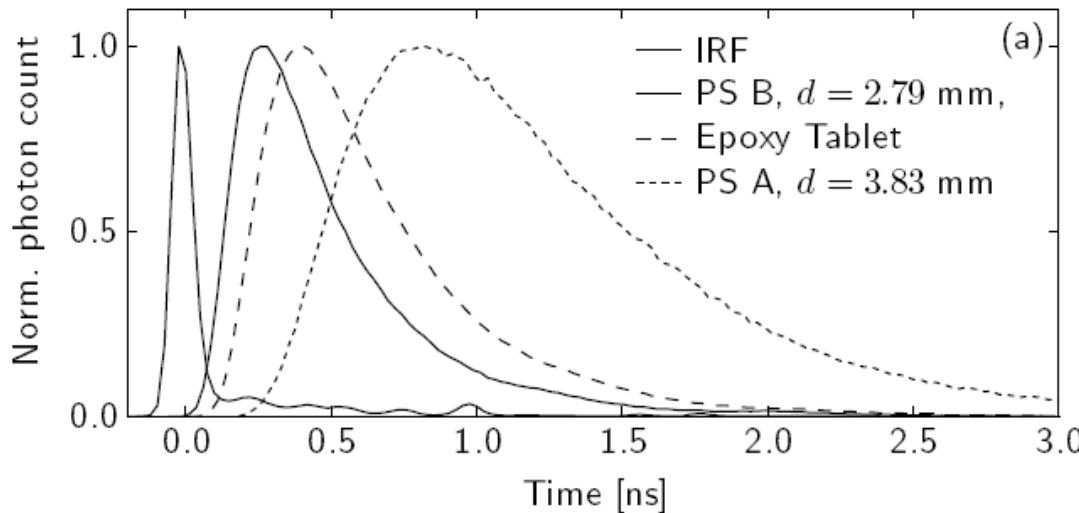

Spectroscopy on Pharmaceutical Tablets – Coll. AstraZeneca

Porosity studies/delayed release

Frequency domain, oxygen Time domain, TOF/Lidar

T. Svensson et al.

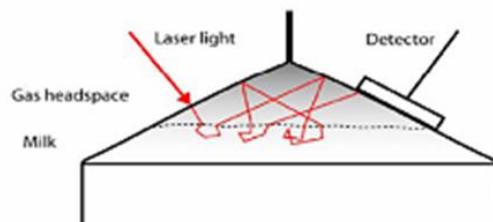

Follow-up: Alignment-free multi-pass gas cell made of nanoporous ceramics -750 times path enhancement !!
Svensson et al. PRL (2011)

FOOD MONITORING – FOOD SAFETY - FRESHNESS

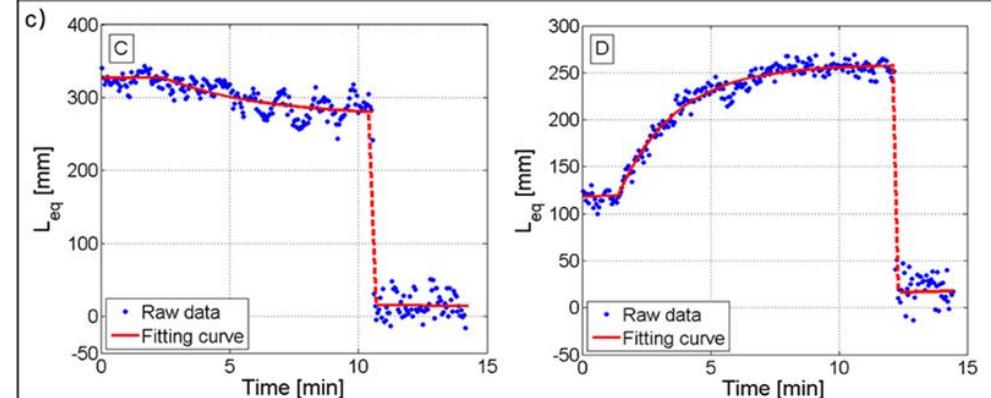

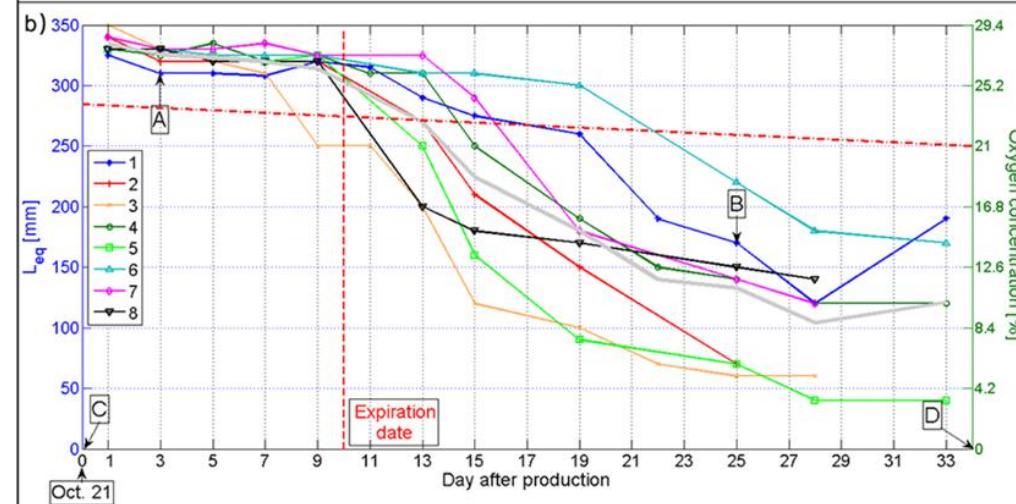

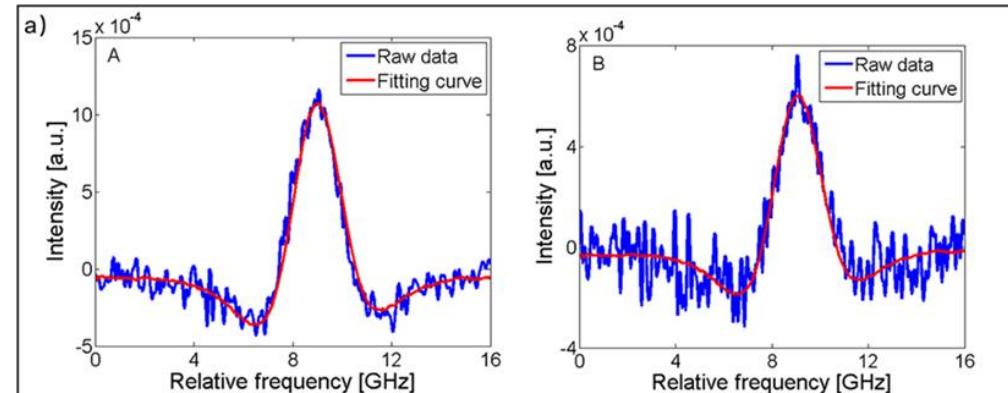

Most food is packed
in modified atmosphere
(low O₂, high N₂, CO₂)

Milk, bread, meat, eggs ..

Lewander *et al.*; Li *et al.*

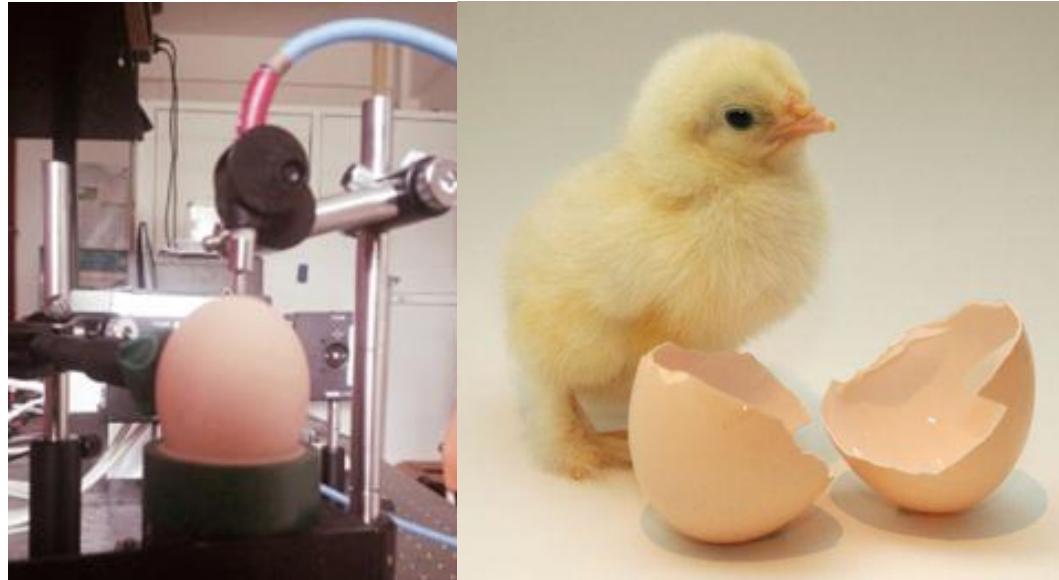

European SAFETYPACK project

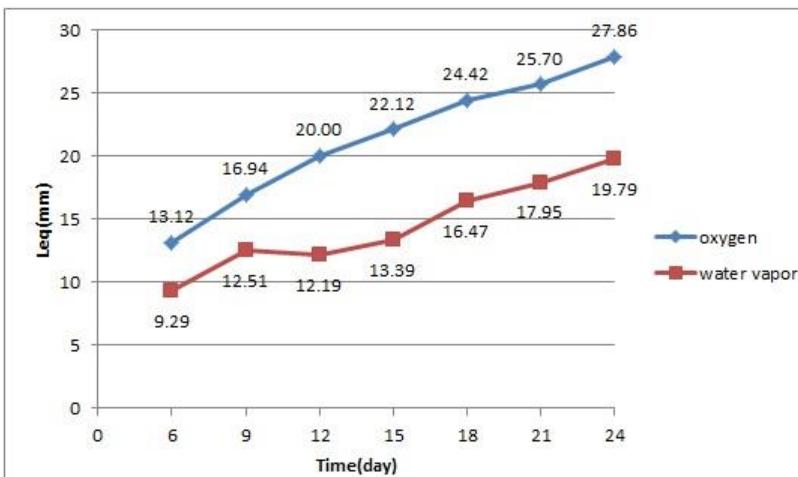

Detection of free oxygen and water vapor in hen eggs

Exploration of diagnostics possibilities

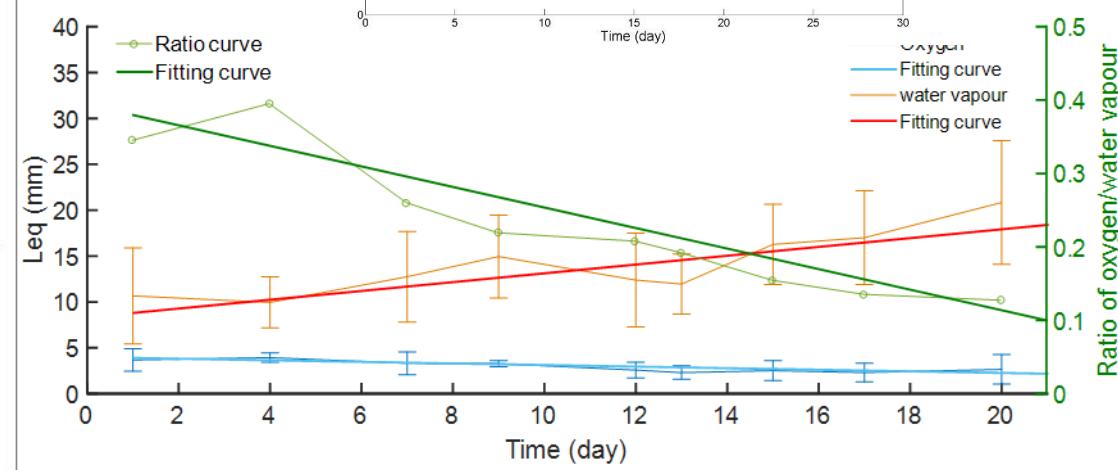

Li *et al.* J. Biophotonics 2017

Unfertilized

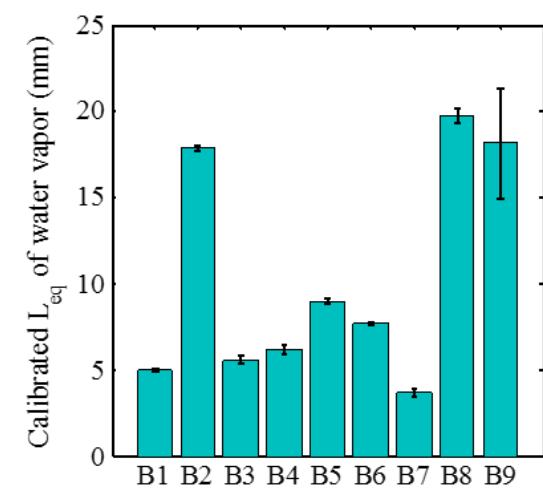

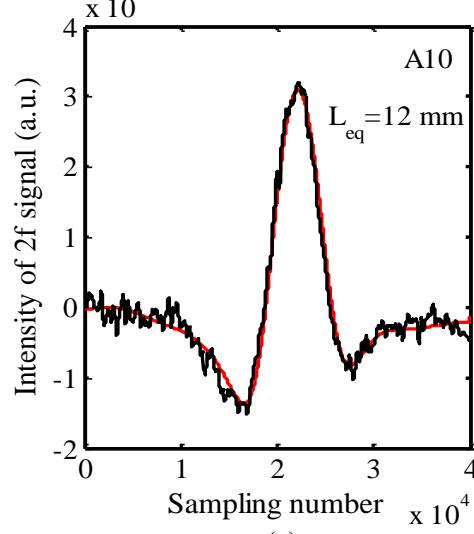

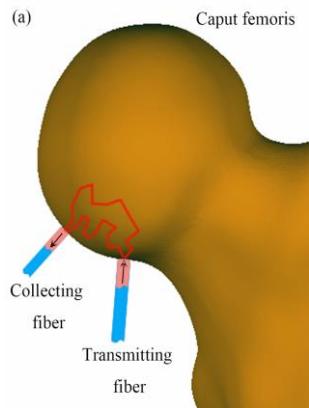

Fertilized

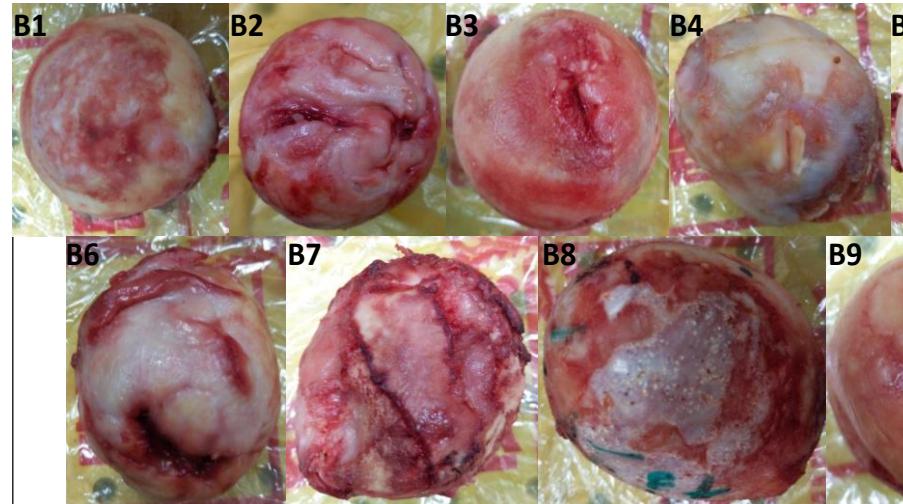

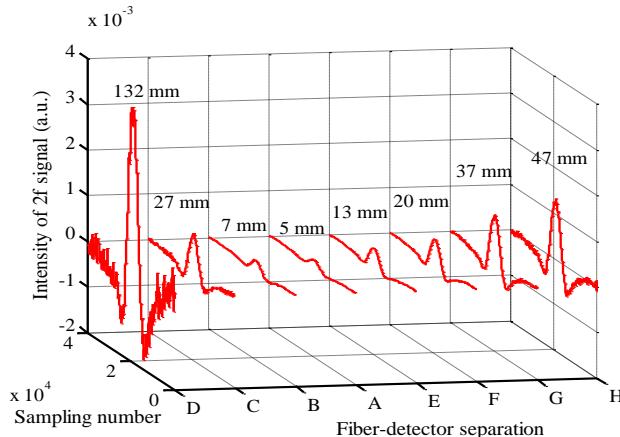

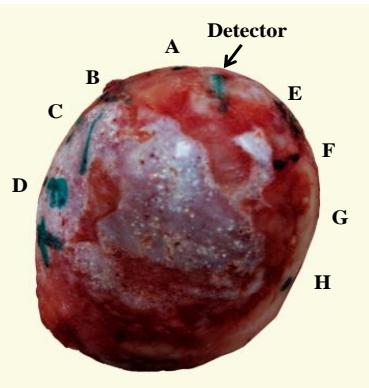

Hip replacement - developing GASMAS for diagnostics

Degradation is accompanied with gas-pore development and impaired blood flow

(b)

Lin *et al.* J. Biophotonics (2017)

Combine with Laser Doppler Blood Flow Measurement:
Comes for free!

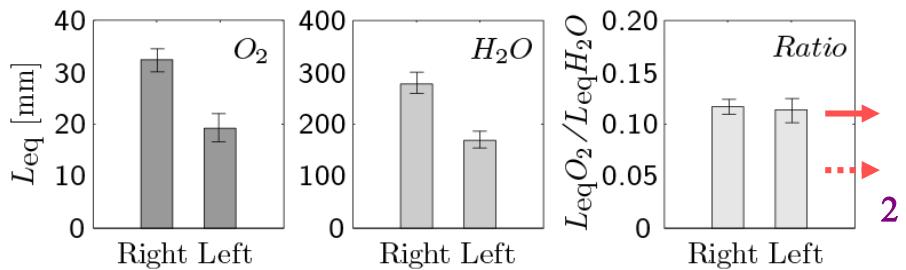

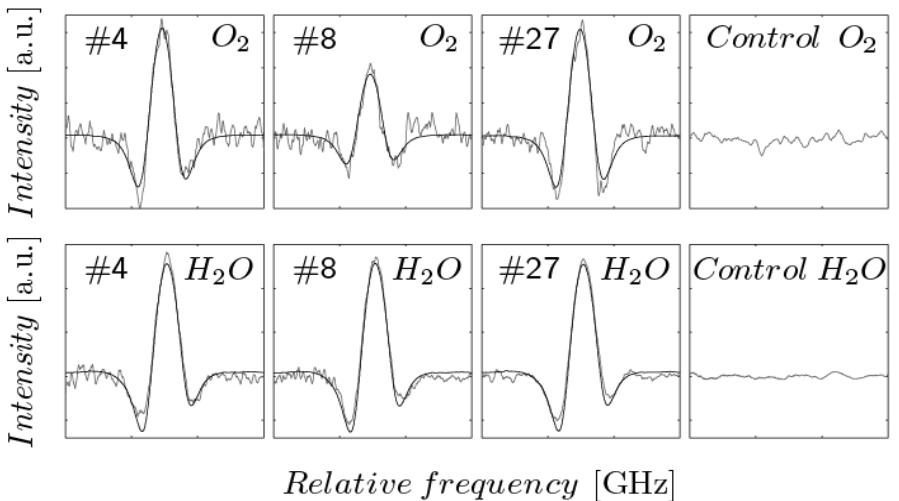

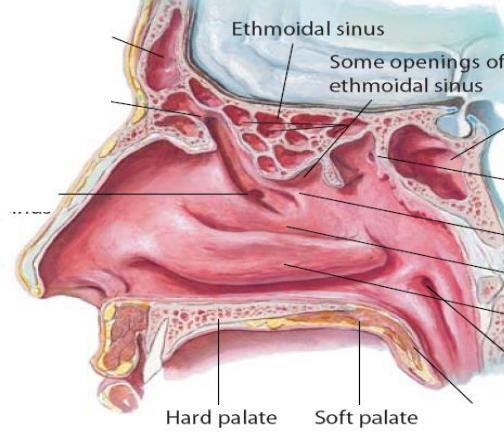

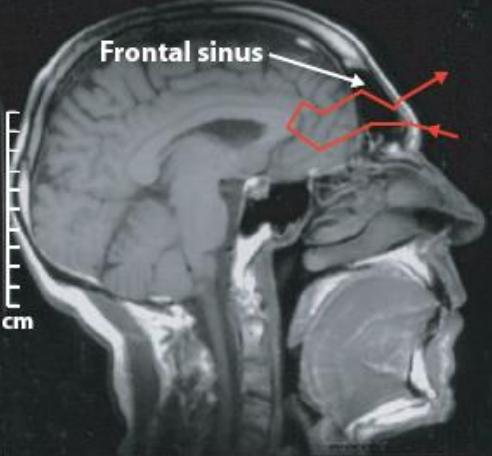

$$\frac{\Delta f}{f} = \frac{v}{c}$$

Fighting bacterial antibiotics resistance!

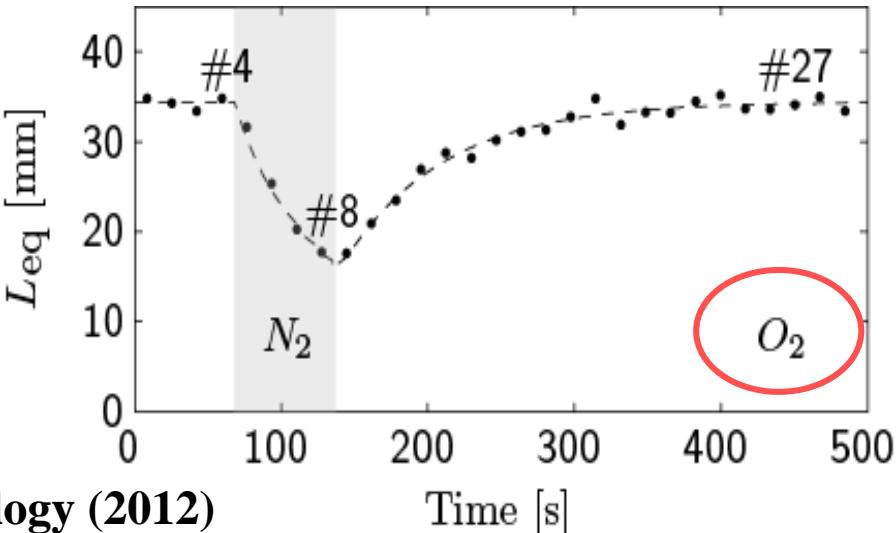

Worldwide concern!

Sinusitis diagnostics

Frontal, maxillary, mastoideal

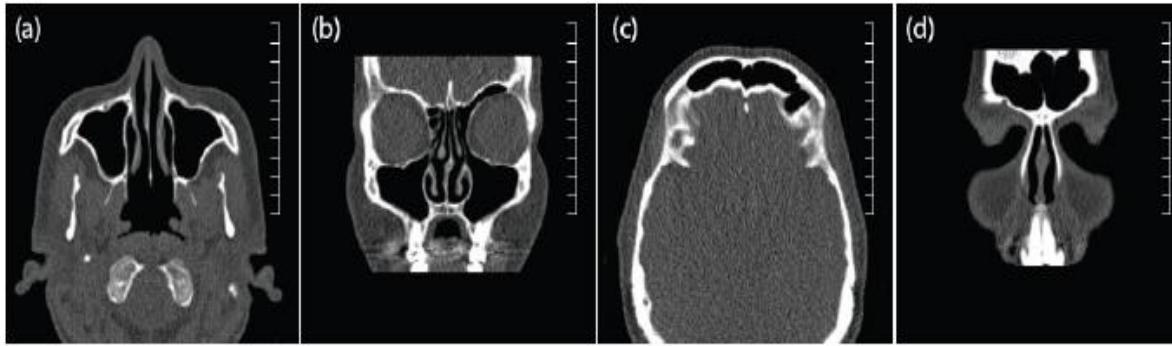

Flemming
Nobel
Prize
1945

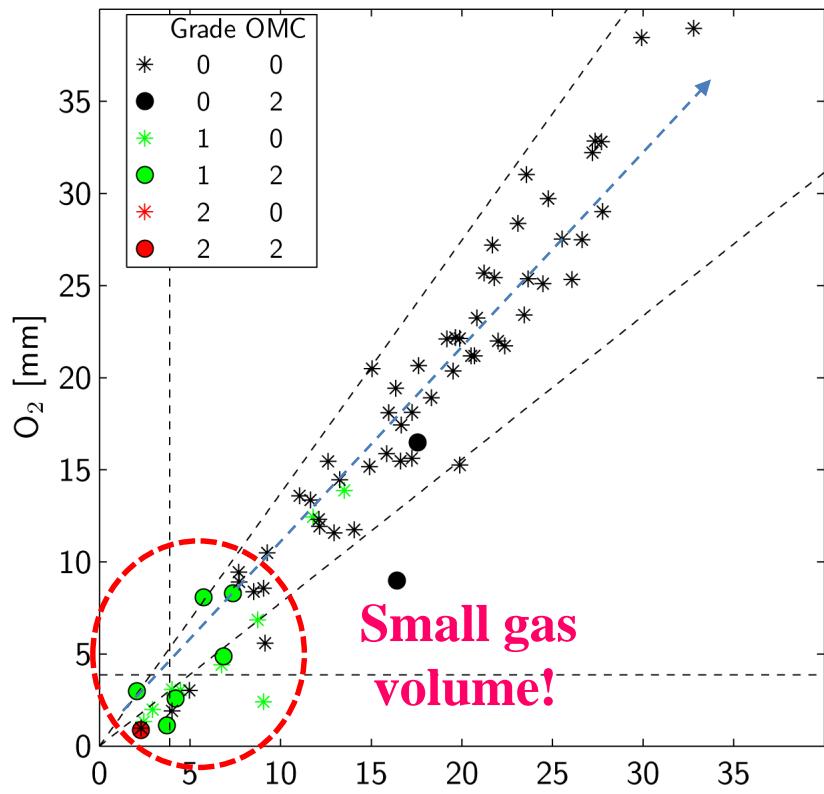

Clinical study on 40 patients

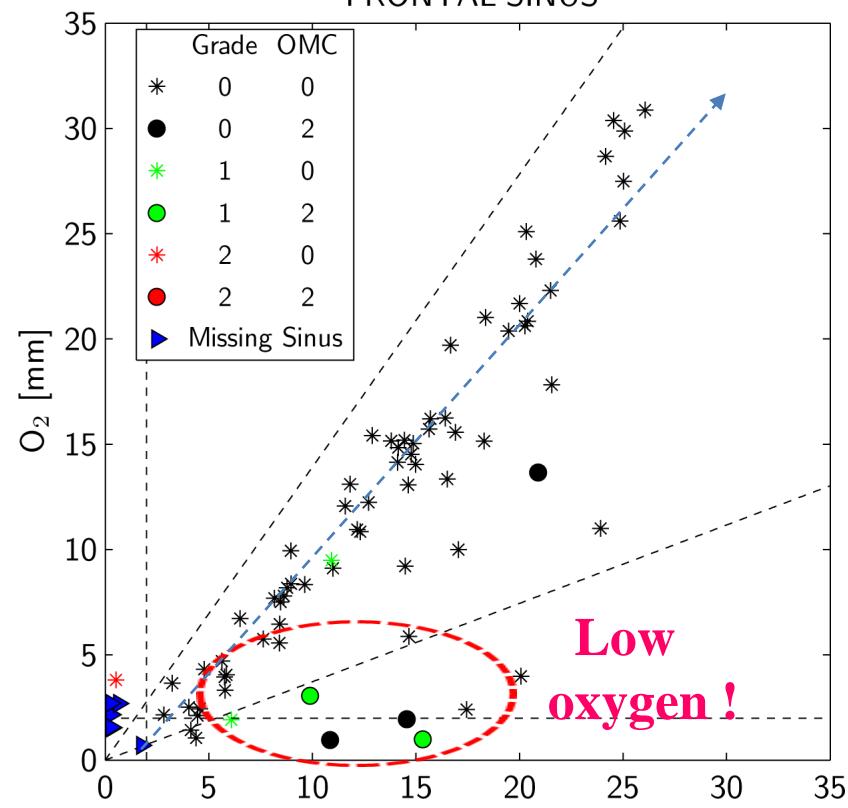

Lewander *et al.* Rhinology (2012) – Results comparable to CT

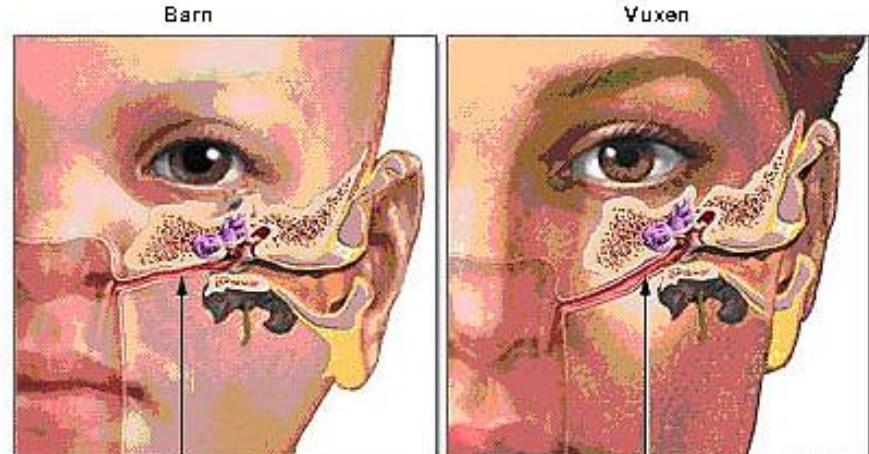

MAXILLARY SINUS

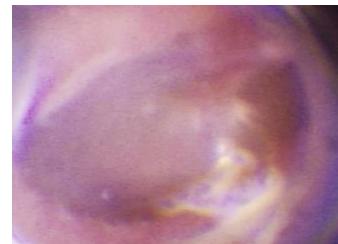

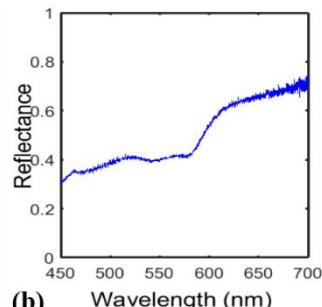

FRONTAL SINUS

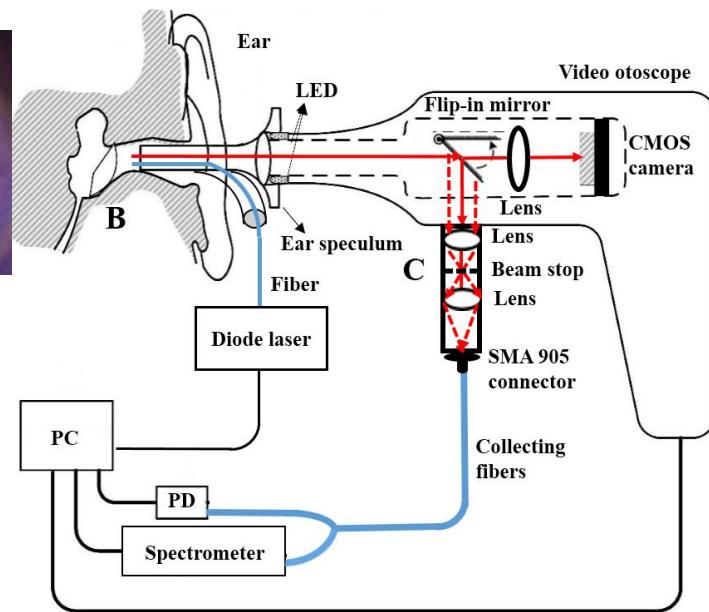

Middle ear infection (otitis)

Ear-drum color monitoring

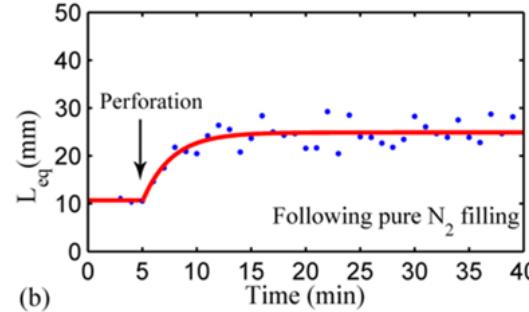

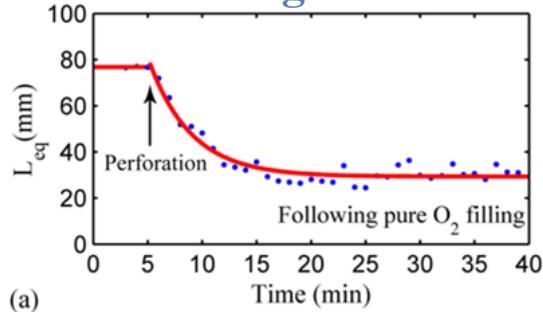

Child Adult

GASMAS Phantom experiments: Zhang *et al.* 2016

Gas signal comes from behind the drum!

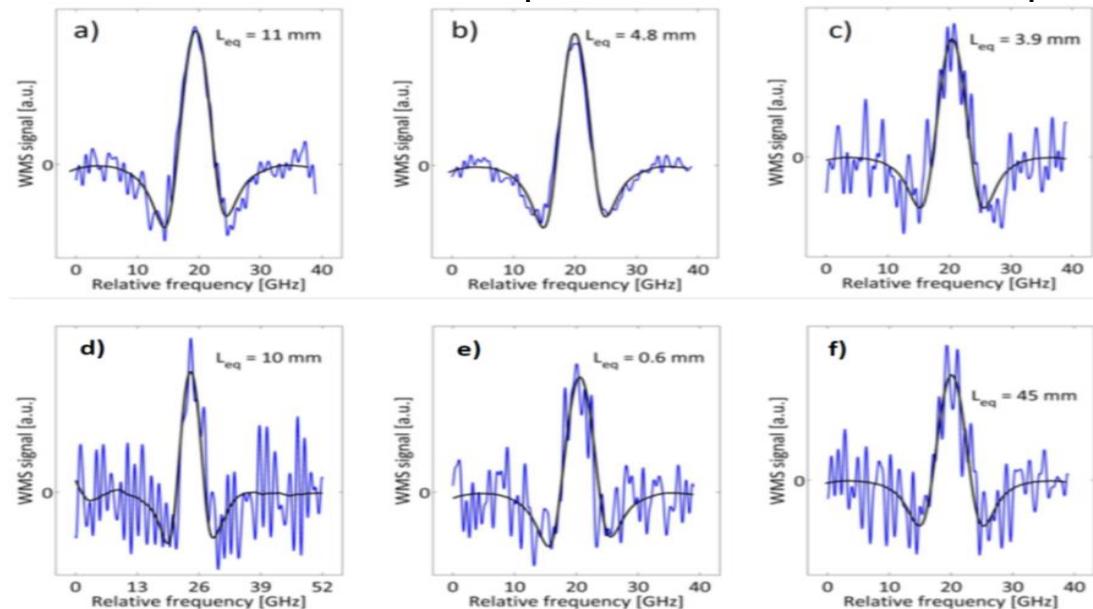

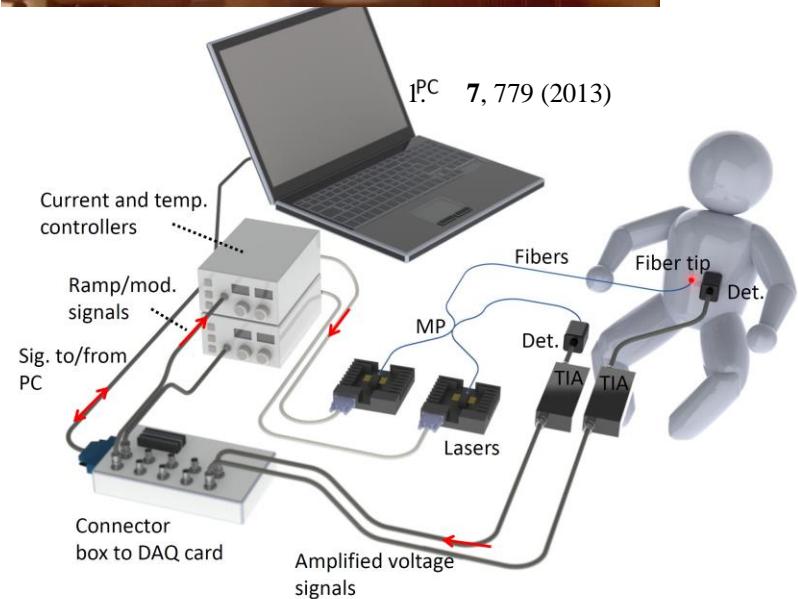

Li *et al.* 2018

Neonatal/Premature child monitoring

Lack of surfactant – lung problem! Eliminate X-rays! 24 h cot-side monitoring of O₂

Lundin *et al.*, Krite-Svanberg *et al.* (2015)

GASMAS Reviews: S. Svanberg, Laser and Photonics Reviews 7, 779 (2013)

K. Svanberg, S. Svanberg, in *Frontiers in Biophotonics for Translational Medicine*,

U.S. Dimish and M. Olivo (eds) (Springer, Singapore 2015) 307-321
